

NOTICE OF PUBLIC INVOLVEMENT MEETING

Project I.D. 2783-05-00
Calhoun Road
County M (North Avenue) to WIS 190 (Capitol Drive)
Waukesha County

The City of Brookfield is proposing roadway improvements to Calhoun Road. The project extends approximately 2 miles from County M (North Avenue) to WIS 190 (Capitol Drive) in the City of Brookfield, Waukesha County. See the other side of this sheet for the Project Location Map.

Need for Improvement: The existing pavement is experiencing a variety of deficiencies resulting from age, poor drainage, and poor underlying soils, making an asphalt overlay an ineffective long-term solution. Currently, it is difficult for vehicles to enter Calhoun Road from the side streets during peak travel periods. Future traffic volumes are expected to continue to increase on the roadway, further degrading safety and traffic operations. The corridor provides only limited pedestrian and bicycle accommodations. A number of hills along the corridor result in substandard sight distances. Finally, the roadway's notable grade change at the Canadian Pacific Railroad track causes some vehicles to bottom-out as they cross the track.

Please Attend: All persons interested in this project are encouraged to attend an open-house meeting to learn about the project. **The meeting will be held in the City of Brookfield Safety Building, 2100 North Calhoun Road on Wednesday, July 10, 2019, from 5:00 pm to 7:00 pm.** You may attend any time during these hours.

Please note this meeting is the fourth of five planned public meetings to discuss the Calhoun Road improvements. Construction of the project is tentatively scheduled for 2021.

Meeting Purpose: The first public involvement meeting was held on May 17, 2017, to discuss the need for the project. The second meeting was held on August 10, 2017, and presented preliminary improvement alternatives that were developed to address the project's needs. The third meeting was held on November 15, 2017, and presented the preliminary design of the preferred alternative of a 4-lane divided roadway. The purpose of this fourth meeting is to present refinements to the proposed roadway design and its impacts, and to discuss the real estate acquisition process. Property owners with real estate interests on the project have been contacted separately by the City of Brookfield with additional information.

As stakeholders, your views are important to the design process. The project team is looking for your feedback, so please attend and share your thoughts on either the comment forms provided or with a project team member. Representatives from the City of Brookfield, raSmith (City's Design Consultant), and The Highland Group (City's Real Estate Consultant) will be present to address your questions. Additional project information, as well as materials from past public involvement meetings, is available at the project website:
